guidelines and helpful videos for you to navigate your product. For best

Hold " 📞" and " 🚱" for 2 seconds to turn off/on the LED lights.

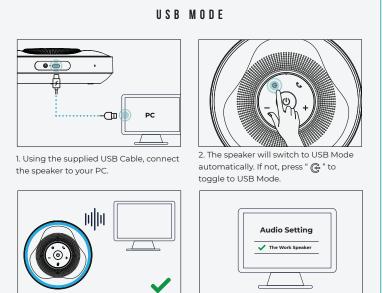

## AUX-OUT MODE

Connect your Work Speaker to an external speaker with AUX Mode. The speaker will automatically switch to AUX Mode when a compatible device is connected using the audio cable.

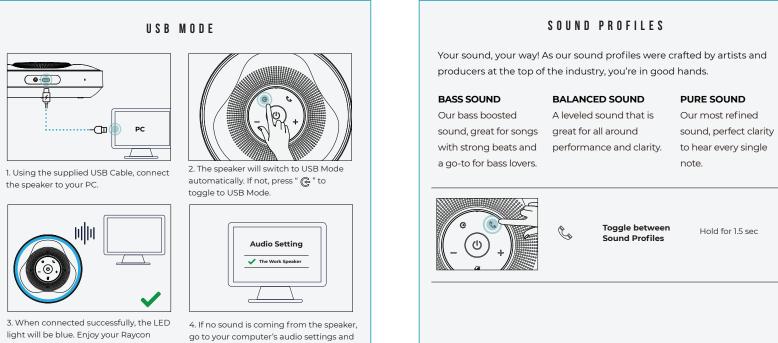

While speaker is in AUX Mode, the speaker will be muted automatically, and all sound will go through the connected external speaker. Disconnect audio cable to exit AUX Mode.

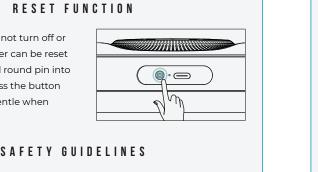

ensure "The Work Speaker" is selected as

the input and output device.

Work Speaker with USB Mode!

### SAFETY GUIDELINES

· Be wary of any edges, uneven surfaces, and metal parts, including on accessories and product packaging, to prevent any possible injury or

· Listen to music at a proper volume to avoid damaging your hearing

· Do not store in high temperatures, such as in a hot vehicle or in direct sunlight.

· Store in cool and dry area.

### SAFETY GUIDELINES

· Do not drop or cause undue impact to the speaker.

· Do not modify, repair, or dismantle the product on your own.

· Do not expose speaker and any of its supplied parts to liquid such as rain for prolonged periods of time. Please see IPX-Rating for more

· Do not expose the speaker to water while charging, as doing so may result in damage to the speaker or the power source.

· When cleaning this speaker, use a soft dry cloth. For more severe stains, dampen the cloth with water only. Anything else increases the chance of dissolving the paint or damaging the plastic.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference

to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct

the interference by one or more of the following measures: - Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated

to meet general RF exposure statement. The device can be used in portable exposure condition without restriction.
