Home thermostat

nVent NUHEAT
Element thermostat

Our family of thermostats are designed exclusively by nVent NUHEAT to be easy to use and energy efficient, while fitting in with any modern home decor.

NVENT NUHEAT SIGNATURE

The nVent NUHEAT Signature thermostat is North America's first WiFi-enabled thermostat designed specifically for electric floor heating systems.

Homeowners can monitor, control, and program their nVent NUHEAT floor heating system via the free Signature smartphone app (iOS and Android) or any web browser. Homeowners can access an intuitive user interface via the 3.5 in color touchscreen display. Signature also provides homeowners with useful information such as energy usage as well as weather updates. The Signature thermostat features 7-day programmability, dual-voltage compatibility (120 V & 240 V), and built-in Class A GFCI protection. The exclusive design features a high-gloss frame and a borderless clear acrylic which blends into any modern room decor.

nVent, NUHEAT, and Signature are trademarks of nVent Electric plc and/or its subsidiaries. All other trademarks are the property of their respective owners and are used under license if applicable.

NUVENT NUHEAT SIGNATURE BENEFITS:

- WiFi-enabled
- Works with Amazon Alexa®, the Google Assistant®, IFTTT®, and more! Full list here: nuheat.com/connected-home
