QUICK SETUP GUIDE

Kids' Headphones

NS-CAHKIDS-P / NS-CAHKIDS-BL

PACKAGE CONTENTS

- Headphones
- 3.5 mm audio cable (47.2 in. /1200 mm long)
- *Quick Setup Guide*

FEATURES

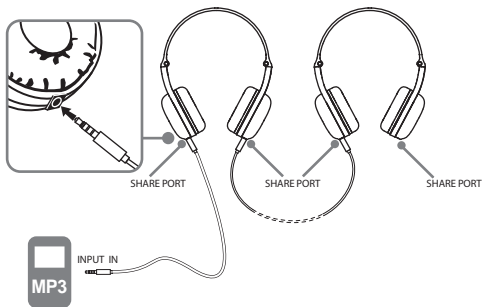

- Share port lets you connect additional headphones to share audio.
- 40 mm drivers produce high quality sound so you can hear everything at a low volume.

Before using your new product, please read these instructions to prevent any damage.

USING YOUR HEADPHONES

Your headphones have two audio jacks. One jack connects your headphones to an audio device. The other jack lets you connect a second set of headphones so you can share the audio.

- 1 Plug the included 3.5 mm audio cable into either audio jack on your headphones and into an audio device such as an MP3 player or portable DVD player.
- 2 If you want to share the audio, plug a second set of headphones that use a 3.5 mm cable into the other jack on your headphones.
- 3 Use the controls on the audio device to control the volume.

CLEANING YOUR HEADPHONES

- Clean your headphones with a damp cloth.
- Do not use abrasive cleaners.
- Do not use solvents such as gasoline, benzene, or paint thinners.
- Do not let water or other liquids drip into the openings on the ear pieces.

SAFETY INSTRUCTIONS

When the volume level on the connected device is set to the maximum:

- Limit listening to thirty minutes per day if listening to high volume audio (such as rock music).
- Refer all servicing to qualified service personnel. Servicing is required when your headphones have been damaged in any way, for example:
 - If liquid has been spilled into the openings on the ear pieces or your headphones have been exposed to rain or moisture.
 - The exterior of your headphones has cracked or damaged.
 - If the audio cable is damaged. You can replace the audio cable with any standard 3.5 mm audio cable.
 - Do not disassemble or try to repair your headphones. There are no user serviceable parts inside.
