2. Check airway for blockages.
3. Replace cover, pressing down firmly on all sides before turning the locks clockwise to close.

VERSATILE FLOOR-TO-CEILING CLEANING

Settings

Slide the **Power** switch to the appropriate speed setting.

Bare Floor/Small Area Rugs

The brushroll spins slowly to clean bare floors and delicate area rugs.

Carpets

The brushroll spins faster to pick up debris below the surface of your carpets.

NOTE: For deep cleaning per ASTM F 608 (embedded dirt in carpets) please use setting II, Carpets.

Upright Mode

To clean floors, place foot on cleaner head and tilt handheld vacuum back.

Above-Floor Mode

Stand the vacuum upright. Step on the foot pedal and pull the wand up to disconnect it from the cleaner head.
