IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be followed:

1. **READ ALL INSTRUCTIONS.**
2. **Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.**
3. Do not touch hot surfaces; use handles. Always use oven mitts when handling hot material.
4. To protect against risk of electrical shock, do not immerse the multicooker housing in water or any other liquid. If housing falls into liquid, unplug the cord from outlet immediately. **DO NOT reach into the liquid.**
5. To avoid possible accidental injury, close supervision is necessary when any appliance is used by or near children.
6. Do not operate any appliance with a damaged cord or plug or after the appliance has malfunctioned or has been dropped or damaged in any way or is not operating properly. Return the appliance to the Customer Service Center (see Warranty for details) for examination, repair or mechanical or electrical adjustment.
7. The use of attachments not recommended by Cuisinart may cause fire, electrical shock, or risk of injury.
8. Do not use outdoors or anywhere the cord or unit housing might come into contact with water while in use.
9. Do not use the multicooker for anything other than its intended use.
10. This unit is not a deep fryer.
11. To avoid the possibility of the multicooker being accidentally pulled off work area, which could result in or damage to the cook personal injury, do not let cord hang over edge of table or counter.
12. To avoid damage to cord and possible fire or electrocution hazard, do not let cord come into contact with hot surfaces, including a stove.
13. Extreme caution must be used when moving the multicooker containing hot oil or other hot liquids.
14. Do not place on or near a hot gas or electric burner, or in a heated oven.
15. Do not operate multicooker in water or under running water.
16. Avoid sudden temperature changes, such as adding refrigerated foods to a heated pot.

17. **CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, COOK ONLY IN THE POT PROVIDED OR IN CONTAINERS PLACED ON THE COOKING RACK IN THE PROVIDED POT.**
18. **CAUTION:** A heated pot may damage countertops or tables. When removing the hot cooking pot from the multicooker, **DO NOT** place it directly on any unprotected surface. Always set the hot pot on a trivet or a rack.
19. To disconnect, turn any control to off, then remove plug from wall outlet.
20. Do not operate your appliance in an appliance garage or under a wall cabinet. **When storing in an appliance garage always unplug the unit from the electrical outlet.** Not doing so could create a risk of fire, especially if the appliance touches the walls of the garage or the door touches the unit as it closes.

SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY

SPECIAL CORD SET INSTRUCTIONS

A short power supply cord is provided to reduce the risks of becoming entangled in or tripping over a longer cord. Extension cords may be used if care is exercised.

If an extension cord is used, the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance. The longer cord should be arranged so that it will not drape over the countertop or tabletop, where it can be pulled on by children or tripped over unintentionally.

NOTICE

This appliance has a polarized plug (one prong is wider than the other). As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

COOKING GUIDELINES

SLOW COOKING

Slow cooking is perfect for foods that require long, slow simmering, such as soups, stocks, stews, and dried beans. Slow cooking is also ideal for tougher and less expensive cuts of meat like shoulder and pot roast.

The Simmer and Low settings are usually used for recipes that cook longer. When starting a dish later in the day, select the High setting to ensure that food is cooked, warm, and ready when you'd like to eat.

To reheat foods, use Brown/Sauté at 350°F and stir until all ingredients are warmed through. Then switch to Warm on the Slow Cook function until ready to serve.

| SETTING | GUIDELINES | RECIPES | TEMP | TIMER |
|---------------|--|--|---------------|--|
| High | Use this setting when you don't have time for a long, slow cook* and when "baking" on Slow Cook. | Soups, casseroles, puddings, stewed fruits | 212°F (100°C) | Programmable up to 24 hours, then 8 hours (Warm) |
| Low | This standard slow cooker temperature is ideal for recipes you start in the morning and enjoy at the end of the day. | Braised foods, roasts, stews, ribs, shanks, chops, less tender cuts of meat, soups | 200°F (93°C) | Programmable up to 24 hours, then 8 hours (Warm) |
| Simmer | The longer the cooking time, the more the flavors blend together and intensify. | Soups, stews, stocks | 185°F (85°C) | Programmable up to 24 hours, then 8 hours (Warm) |
| Warm | Do not use this setting to cook food. It is intended only for keeping cooked food warm. | ---- | 165°F (74°C) | Default is 8 hours. or Programmable up to 24 hours |

NOTE: The U.S. Department of Agriculture (USDA) recommends that when cooking in a slow cooker, food should reach 140°F within 3 hours.

*Results may vary

Suggested Cuts of Meat for Slow Cooking

| BEEF/VEAL | PORK | LAMB | POULTRY | GAME |
|--|--|--|---|---|
| Choose cuts that are full of flavor and benefit from braising to tenderize. | Less tender cuts work best. Tenderloin will become tough if slow cooked. | Choose flavorful cuts that benefit from braising to tenderize. | Best choice – dark meat – bone-in. Breast meat can become dry when slow cooked. | Game generally tends to be less tender; therefore it is perfect for slow cooking. |
| Arm pot roast, brisket, short ribs, bottom round, chuck or rump roast, chuck shoulder steak, veal shanks | Boston butt roast; pork shoulder pieces; sausages; country style pork ribs (bone-in); pork shoulder or blade roast | Lamb shoulder; lamb stew meat; lamb shanks | Chicken or turkey legs and thighs | Venison roasts or stew meat, pheasant, duck thighs and legs |

STEAMING

Steaming is one of the healthiest methods of cooking. No butter or oil is required and fewer nutrients are lost in the steaming process. Four cups/one quart of water is used for basic steaming.

| Chicken | 2 medium breast (8 to 10 ounces each) | whole | 18–20 minutes (depending on thickness) |
| Shrimp | 8 ounces | peeled & deveined | 4–5 minutes |
| Fin Fish (salmon, swordfish, etc.) | 1 pound | cut into portion sizes | 8–12 minutes |

BROWN/SAUTÉ

Use Brown/Sauté as you would a skillet or sauté pan on the stovetop for a variety of recipes. Prepare a quickly sautéed skillet dish, or brown food right in the pot as the first step in many braised or slow-cooked family favorites.

To reheat foods, use Brown/Sauté at 350°F and stir until all ingredients are warmed through. Then switch to Warm on the Slow Cook function until ready to serve.

TIPS & HINTS

HEATUP TIMES may vary based on a number of factors. Approximate times are:

- Brown/Sauté (350°F, empty pot) – 6 minutes
- Steam (1 quart of water) – 10 minutes

THE COOKING POT is designed specifically for use in the multicooker. Do not use in oven or on stovetop. Take it right to the table to serve!

THE STEAMING RACK should be placed in the UP position to raise food above water. NOTE: The metal steaming rack is specially designed for this pot and will not damage the coating if used as directed.

BROWN/SAUTÉ

- For even browning, it is important not to crowd the pan. Foods should be cooked in an even layer. Cook larger portions in batches when necessary.
- When browning and sautéing foods before slow cooking, some items may produce a lot of grease. To remove excess, use pot holders to carefully remove the pot from the base; pour off the grease from the edge of the pot. Return the cooking pot to the base and finish cooking.
- When browning meats, browned bits left in the bottom of the pot can be used to flavor the dish. Simply add a small amount of liquid (like water, wine or broth) to the pan and scrape up the browned bits with a wooden spoon – leave in pot. Incorporate into the dish or sauce.
- Foods can be reheated with the Brown/Sauté function. Put precooked food into the cooking pot. Set on Brown/Sauté at 350°F and stir until all ingredients are warmed through. Once food is simmering, switch to Warm on the Slow Cook function until ready to serve.
- For thicker dishes like stews, a small amount of liquid may need to be added to the pot when reheating.

SLOW COOKING

- Browning foods before slow cooking can add more depth and flavor to the finished dish. If time is short skip this step and add all ingredients to your cooking pot to slow cook. The only exception is ground meats, which should always be browned before slow cooking.
- When converting a traditional slow cook recipe to include Brown/Sauté, the liquid amount may need to be increased. This is because cooking starts at a higher temperature than it would in a traditional slow cooker. Recipes vary but we recommend checking the recipe halfway through cooking time.
- For best results, fill multicooker at least one-quarter full but not more than three-quarters full.
- To ensure that root vegetables such as carrots and potatoes are cooked through, cut them no larger than 2 inches. This is most important for dishes that slow cook fewer than 6 hours.
- “Crisp-tender” vegetables should be added during the last 30 minutes of cooking time to prevent overcooking. Some fresh herbs such as chopped parsley or chives should be stirred into dishes just before serving.
- Removing the lid when slow cooking lets heat escape, requiring extra cooking time. Each time the lid is removed, add about 15 to 20 minutes of cooking time.
- A fat mop can be used to remove separated fat from slow-cooked food by brushing it over the top. Alternatively, the food may be refrigerated and the congealed fat can then be lifted off and discarded before reheating and serving.
- Should you want to decrease the amount of fat in recipes, remove as much of the visible fat as possible from meats and skin from poultry. Drain any fat from browned meats.
- Many slow-cooked foods such as stews benefit from cooling and refrigerating, then reheating – as the saying goes, stew or chili is always better the second day. Bring food to a simmer on the Brown/Sauté function at 350°F. Stir to ensure all

ingredients are warmed through and then switch to Warm on the Slow Cook function until serving.

- If using frozen foods, thaw completely before slow cooking.
- Recipes can be assembled the night before cooking. Brown ingredients if necessary and then combine with remaining ingredients in cooking pot. Cover and refrigerate. When ready to cook, place the cooking pot in the cold multicooker and add 30 minutes to your projected cooking time.
- In most cases, dried beans should be soaked overnight, drained, rinsed, and drained again before cooking. Do not add salt or any acid to beans when cooking, as it will prevent them from softening completely.

Adapt your traditional recipes to slow cook:

- For recipes that do not require the Brown/Sauté function before slow cooking, reduce the cooking liquid by at least 50% (soups are the exception). Liquids do not evaporate as they do in traditional cooking, and most often you will end up with much more liquid than you began with.
- Dairy products (milk, sour cream, some cheeses) will break down and curdle during slow cooking. Substitute canned evaporated milk, nonfat dry milk, or add dairy products during the last 30 minutes of cooking.
- If your recipe calls for precooked pasta or rice undercook it and add to the pot in the last 30 minutes of slow cooking.
- Pasta can be cooked at the end of a slow cooking recipe. Switch unit to High and when liquid comes to a simmer add pasta and cook according to manufacturer's recommended time.

STEAMING

- To steam, fill the multicooker pot with no more than 1 quart of water.
- For smaller foods that might not sit evenly on the rack, we recommend steaming in a parchment or foil pouch. Note: If using foil, increase cooking time by approximately 50% of what is recommended.
- When adding heavier foods like corn on the cob to the steaming rack, place them on the middle of the rack and work your way to the edges.
- Always use caution when removing lid. It is best to remove the lid away from you.

CLEANING, CARE AND MAINTENANCE

All removable parts are dishwasher safe.

1. Unplug unit and allow it to cool completely before cleaning.
2. Never immerse unit in water or other liquids.
3. To clean the housing and control panel, simply wipe with a clean damp cloth.
4. Wash cooking pot, lid and rack with warm soapy water and rinse thoroughly. Or, clean in top rack of dishwasher.
5. Dry all parts after every use.
6. Any other servicing should be performed by an authorized service representative.

NOTE: If food residue sticks or burns onto cooking pot surface, fill pot with warm soapy water and allow to soak before cleaning. If scouring is necessary, use a nonabrasive cleanser or liquid detergent with a nylon pad or brush.

Poached Pears

Poached pears can be enjoyed simply with whipped cream or a rich vanilla ice cream.

Settings: Brown/Sauté
Slow Cook

Makes 8 servings

2 cups white Zinfandel, or other
sweet rose wine

6 cups water

¼ cup granulated sugar

1 vanilla bean, halved and seeds

white pith removed

2 tablespoons fresh lemon juice

pinch kosher salt

cored

1. Put all of the ingredients, except the pears,

into the cooking pot of the Multicooker.

2. Cover and set to Brown/Sauté at 375°F to

temperature to 300°F and allow to simmer

for about 30 minutes to reduce mixture

slightly.

4. Add the pears, cover and switch unit to

Slow Cook on High for 2 hours. When

finished pears should be just tender. You

should be able to pierce the fruit with the

tip of a paring knife, getting little resistance.

If overcooked, the pears will be mushy, if

undercooked, they will be tough and grainy.

All pears are different, so if you find that

they need additional time, add another 30

minutes and check after every 10 minutes.

5. Once pears are properly poached, carefully

remove with a slotted spoon and reserve on

a platter.

6. If a serving sauce is desired, switch the unit

to Brown/Sauté at 375°F for 30 minutes.

7. Serve pears warm or at room temperature,

No need to turn on your oven to enjoy
the taste of homemade pie.

Makes 10 servings

Crumb Topping:

1 cup unbleached, all-purpose flour

1 cup rolled oats

¾ cup packed light brown sugar

¼ teaspoon ground nutmeg

¼ teaspoon kosher salt

12 tablespoons unsalted butter

Filling:

3 Bosc pears, peeled, cored and cut

into ½-inch chunks

3 peaches, cut into ½-inch chunks

6 small plums, cut into ½-inch chunks

1 cinnamon stick

½ cup granulated sugar

¼ cup tapioca starch

1 teaspoon pure vanilla extract

½ teaspoon ground ginger

¼ teaspoon orange zest

¼ teaspoon kosher salt

¼ teaspoon ground nutmeg

1. Combine all crumb topping ingredients

except the butter in a medium bowl and set

aside.

2. Add the butter to the cooking pot of the

Multicooker set to Brown/Sauté at 350°F.

When the butter is hot and foamy, add the

crumb topping ingredients and cook,

stirring frequently, until toasted and dark

golden brown, about 12 to 15 minutes.

3. Remove crumb topping to a baking sheet

lined with parchment paper and set aside

cooking pot and return to unit.

4. Gently toss together all remaining

ingredients in the cooking pot. Cover and

set to Slow Cook on High for 3½ hours.

(Start checking fruit at 3 hours to be sure it

is not getting mushy.)

5. Once fruit is tender and juices have

become a shiny, glaze-like sauce, top

evenly all over with crumb coating.

Dulce de Leche

Making your own dulce de leche is simple and satisfying. The longer you cook it, the richer and more concentrated the caramel flavor gets.

Setting: Brown/Sauté

Makes about 1 ½ cups

2 cans (13–14 ounces) sweetened condensed milk

½ teaspoon baking soda

1. Put all of the ingredients into the cooking pot of the Multicooker.

2. Set the unit on Brown/Sauté at 350°F to

bring mixture to a boil, uncovered, stirring frequently. Once mixture just comes to a boil, reduce heat to 250°F so it is at a low simmer. Keep pot uncovered and stir occasionally, cooking the sauce until it is a dark caramel color and thickened, but pourable, about 1 to 1 hour 15 minutes.

3. Switch to Slow Cook on Warm if serving immediately, or cool to room temperature and store in refrigerator if using at a later time.*

Applesauce

Desserts

When fall comes around, nothing is better than the aroma of apples cooking in the home.

Setting: Slow Cook

Makes about 4 cups

¾ pounds apples, cored and cut into

two-inch pieces (peeled or unpeeled)

2 cinnamon sticks

2 pinches freshly ground nutmeg

¾ pinch ground cloves

¾ pinch kosher salt

¾ cup water

2 tablespoons fresh lemon juice

1. Put all of the ingredients into the cooking pot of the Multicooker.

2. Cover and set to Slow Cook on Low for 4 hours.

3. Once unit switches to Keep Warm, remove the cinnamon sticks. If a chunky sauce is desired, use a potato masher to mash

passed through the strainer, discard the skins (if necessary) and return smooth

apples to the cooking pot. Keep sauce on Keep Warm for serving, or cool to room

temperature and store in the refrigerator.

Steamed Artichokes

Trimming the bottoms of the artichokes ensures that they stand up straight, so do not skip that step. Also, in addition to adding flavor, the lemon slices prevent the artichokes from turning brown during cooking. Enjoy plain or dip in a nice lemon oil.

Setting: Steam

Makes 4 servings

- | | |
|-----|--|
| 1 | quart water |
| 4 | medium artichokes |
| 4 | garlic cloves, peeled and thinly sliced |
| 1/4 | cup fresh lemon juice (from about 1 lemon) |
| 4 | pinch freshly ground black pepper |
| 4 | pinch kosher salt |
| 4 | thin slices lemon |
- Put the water into the cooking pot of the Multicooker fitted with the steaming rack and cover.
 - Cut the stems off the artichokes so they are able to stand. Using a serrated knife, cut the tops of the artichokes off, and with kitchen shears, trim the tips of the outer leaves. Pull leaves back to open the artichokes.
 - Evenly stuff the garlic slices in between the leaves of each artichoke. Season each with lemon juice, pepper and salt. Place one lemon slice on top of each artichoke.
 - Set the unit to Steam for 25 minutes.
 - Once tone sounds, indicating unit is ready to steam, place the artichokes upright on the rack and cover again.
 - Artichokes are done when the leaves can be pulled off easily, and when turned over, the tip of a paring knife easily pierces the bottom-center of the artichoke (the heart).

Shrimp & Chorizo Gumbo

Not exactly a purist's version of gumbo, but a delicious one just the same!

Settings: Brown/Sauté
Slow Cook

Makes about 8 cups

1/4 teaspoon vegetable oil

3/4 pound andouille sausage or chorizo,

cut into 1/2-inch dice

1/2 stick (1/4 cup) unsalted butter

1/4 cup plus 2 tablespoons unbleached,

all-purpose flour

1 small onion, peeled and finely

chopped

2 medium celery stalks, finely

chopped

1 medium green pepper, finely

chopped

2 garlic cloves, peeled and finely

chopped

1/4 cup dry white wine

1 tablespoon Creole seasoning

1/2 teaspoon kosher salt

1 can (14.5 ounces) diced tomatoes,

drained

1 bay leaf

5 cups shrimp stock* (see page 6)

8 ounces okra, cut into 1/4-inch rounds,

fresh or frozen

1 pound medium shrimp, peeled,

deveined and rinsed

1. Put the oil into the cooking pot of the

Multicooker set to Brown/Sauté at 400°F.

Once preheated, add the sausage in two

batches and cook until browned all over;

about 10 minutes. Remove and reserve the

sausage. Carefully remove the pot and pour

off the grease into a separate container.

Return the pot to the base.

2. Lower the heat to 300°F and add the butter.

Once butter has melted, stir the flour into

the butter with a wooden spoon so that the

mixture comes together – this is called a

roux. Continue stirring roux until it is

smooth and resembles the color of peanut

butter, approximately 15 to 20 minutes. It is

important to keep a close eye during this

step as the roux could burn if it is not

frequently stirred.

3. Once the roux has reached the appropriate

color, raise temperature to 325°F. Stir in the

onion and celery; sauté for about 5 minutes. Stir in the green pepper and garlic and continue to cook for another 5 minutes. Stir in the white wine and scrape any brown bits that may have accumulated in the bottom of the cooking pot. Stir in Creole seasoning and salt and cook for 1 minute. Stir in tomatoes and bay leaf. Using a nonstick whisk, slowly add in the shrimp stock and whisk until all ingredients are incorporated.

4. Return the sausage to the pot, cover and switch unit to Slow Cook on Low for 4 hours. Once unit switches to Keep Warm, stir in the okra and switch to Brown/Sauté at 300°F. Simmer for 30 minutes to thicken. Taste and adjust seasoning.

5. The final step is to stir in the shrimp. The shrimp will take only 5 minutes to cook so wait until just before serving to add. If desired, set to Keep Warm for serving. Serve in shallow bowls over rice.

*Shrimp stock is a key ingredient for this dish, and is easy to make with the shells from the shrimp used in the recipe. However, if necessary, vegetable broth can be substituted.

Sausage Bites in Mustard Wine Sauce

Preparing this dish is a breeze, and it will be a hit every time – it is in the Test Kitchen! Pair this with nice crusty bread and a favorite bottle of wine. Your guests will love you.

Setting: Brown/Sauté

Makes 8 appetizer servings

- 24 ounces smoked chicken or turkey sausage, cut on the diagonal into ½-inch slices
- 1 teaspoon olive oil
- 1 medium onion peeled, cut into ½-inch pieces
- 1½ cups dry white wine
- ¼ cup Dijon mustard
- 1 tablespoon chopped fresh parsley, for garnish

1. Set the Multicooker to Brown/Sauté at 400°F. Cooking in three to four batches (you don't want to overcrowd the pot or the sausage will not brown well), add sausage to the cooking pot, cooking each batch, until sausage is nicely browned (about 4 to 5 minutes per batch).

2. Once the sausages are browned, return all to the pot and reduce the heat to 350°F. Add the oil. Add the onions and cook 10 to 12 minutes, stirring occasionally, or until softened and translucent.

3. Raise the heat again to 400°F and add the wine. Bring the wine to a boil and cook until reduced by about two thirds, stirring occasionally.

4. Finally, reduce the heat to 300°F and stir in the Dijon. Simmer, uncovered, until sausages are completely coated and sauce is slightly thickened, about 2 minutes.

5. Garnish with parsley and serve.

1. Put the oil into the cooking pot of the Multicooker set to Brown/Sauté at 400°F. Add the mushrooms, carrot, pepper and cabbage and cook for 1 to 1½ minutes to soften slightly.
2. Stir in the scallion and ginger and cook until fragrant, 30 seconds. Add the soy sauce, sesame oil, fish sauce and vinegar and cook about 1 minute longer, until liquid is absorbed. Transfer filling to a bowl and set aside to cool slightly.
3. Carefully clean out cooking pot and return to base of unit. Lightly coat the steaming rack with nonstick cooking spray and put ¼ quart of water into the cooking pot of the Multicooker fitted with the rack.
4. Set up your work station with a small bowl of water and a pastry brush, large plate or cutting board, wonton wrappers, and wonton filling. Working with 3 to 6 wonton wrappers at a time, place 1 heaping teaspoon of filling in the middle of each wrapper. Brush the edges of the wrappers with water and bring two opposite corners up, making a triangle. Crimp all edges like a pleat and pinch to seal, using more water if needed.
5. Repeat with the remaining wonton wrappers. Keep the prepared dumplings
