1. BEFORE YOU START

Before you begin, make sure you have:

1. A mobile device - Android (V4.1 or later) or iOS (V8 or later)

2. Batteries installed and charged via USB charging cable

Note: It will take approximately 10 hours for batteries to fully charge

**3.** A Wi-Fi connection (have the password handy)

4. Download the Cocoon Connect app

For detailed instructions and videos, visit www.cocoonproducts.com.au

Scan this code or search for Cocoon Connect

2. APP SETUP

Register by email
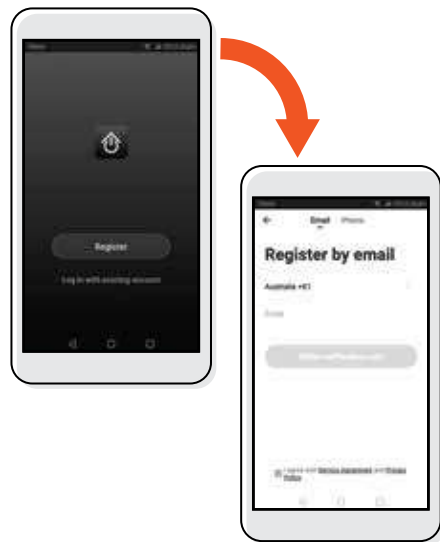

First time users:
Register an account and follow the remaining prompts on screen

3. CONFIRM PAIRING MODE

INDICATOR LIGHT

Ensure that LED indicator light around the Smart Doorbell button is flashing Red for pairing mode. Refer instruction manual if it is not

## 4. ADD THE DOORBELL
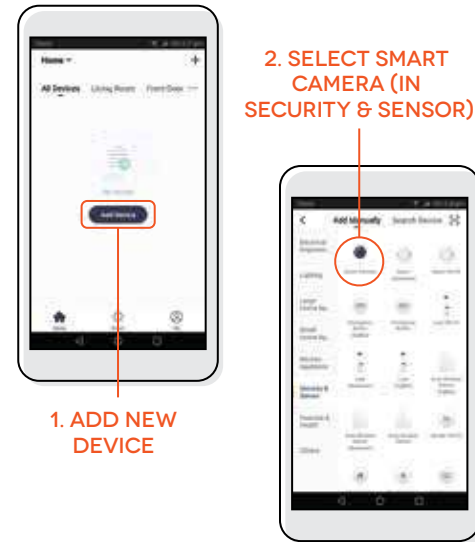

2. SELECT SMART CAMERA (IN SECURITY & SENSOR)

1. ADD NEW DEVICE

5. CONNECT DOORBELL TO WIFI

If you have any issues with this step, ensure your password is correct
If you are still having issues, please check your Instruction Manual
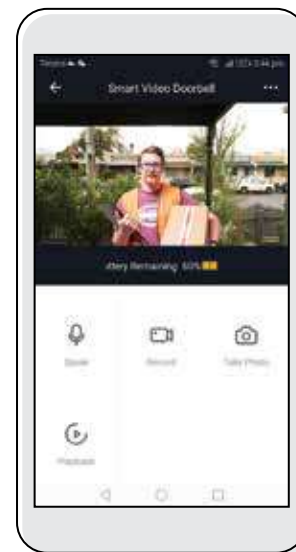

6. SCAN QR CODE WITH CAMERA

1. Hold the mobile phone 15 to 20cm in front of the Doorbell for the camera to scan the QR code.
2. The Smart Video Doorbell will beep when the code is scanned
3. Press 'Heard the Beep'

7. DOORBELL ADDED SUCCESSFULLY
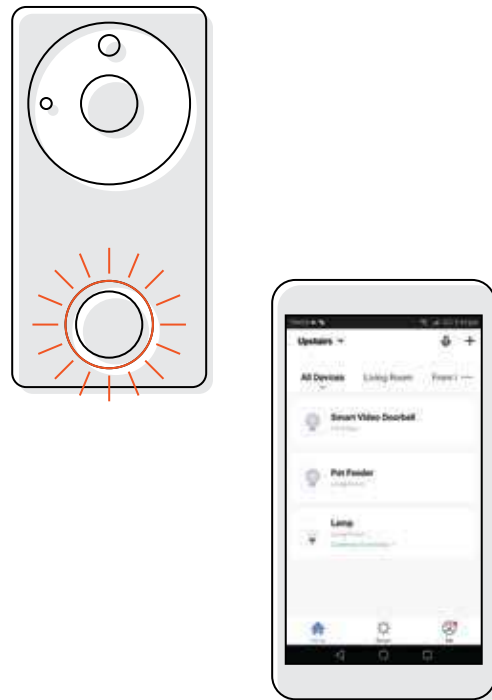

LED will flash BLUE initially and then turn off until pressed

8. CONTROL YOUR DOORBELL

Use, manage and control your Smart Video Doorbell from the Cocoon Connect app
