

# Instruction Manual of SK569-WU-AC

Ver1.0

## I . Function

### 1. Product Feature

SK569-WU-AC is an American standard WiFi smart power strip ( 3 independently outlets +2 USB (Type A+C ) , which can be controlled by APP and remote. Equipped with remote control function,count down function and timer function.

### 2. Product Picture

## II . Product Parameter

<b>Appearance</b>	
Model#	SK569-WU-AC
Dimension	265**60*31MM (not contains the length of power cord, 3ft power cord)
Product color	White
Product Weight	About 490g
<b>Parameter</b>	
Input Voltage	125Vac/60Hz
Power Load	15A Max. 1875W resistive; 8A Max. 1000W tungsten
USB	5V, 3.4A
WiFi Parameter	Support protocol: 802.11 b/g/n; channel: <a href="#">1-14@2.4GHz;</a> Support safety mode: WPA/WPA2
Standby Power Consumption	<0.5W
Mobile Phone System	iOS 8.0 and above;
	Android 4.4 and above

---

### III. Using Instruction

1. SK569-WU-AC is an American standard WiFi smart power strip ( 3 independently outlets +2 USB A+C ). The main function is to control the on/off and set timing via APP. Before using the device's functions, you need to pairing the WiFi firstly, namely, product can connect to the Internet through WIFI, which can be a router or a mobile hotspot.
2. There is a button with indicator on the housing.
  - 1) Click the button--turn on/off the power strip, the blue indicator light will light up when it is on and off when it is off;
  - 2) Long press-- enter into the EZ pairing mode, the indicator will flash quickly and then connect to the network according to the EZ pairing steps.
  - 3) Long press again when the indicator flash quickly and then enter into AP pairing mode. When the indicator flash slowly, then connect to the network according to the AP pairing mode.

#### **FCC STATEMENT :**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B

---

digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
