

Primo™ Stereo Headphones

PRM100, PRM100R, PRM100B

One of the building blocks to successful student learning is to teach listening skills that help develop comprehensive language and literacy. Teachers find that students excel when they are more focused on their lessons in classrooms, labs, libraries, and testing environments. Primo™ headphones are uniquely designed to provide the perfect blend of all of these.

Noise-reducing earcups allow students to clearly hear their lessons, and protect from unnecessary and distracting ambient noise as well.

Made of ABS plastic, these headphones are rugged and reliable, with 3.5mm stereo plug, making it a versatile unit to connect to almost any audio device: tablets, smartphones, computers and more.

Available in Blue, Red and Black.

Headphones

Noise-reducing earcups
