

Quick-Kill® Mouse Trap

Instructions

1. Lift the bait cover.
2. Bait the trap using peanut butter or anything high in protein like chocolate, hazelnut spread, etc. in the bait trough provided. Be sure to use a cotton swab, toothpick or another tool to bait so your scent is not transferred onto the trap.
3. Close the black bait cover.
4. Lift the killing bar until it clicks and locks into place.
5. Place the trap where you have seen signs of rodent activity or along the wall where rodents primarily travel. The end of the trap with the bait trough should be placed flush against the wall.
6. After the mouse is caught, properly dispose of the dead rodent. The trap can either be discarded or reused.
